Hardworking Web-Developer with 2.5 years of experience in creating reliable Martech solutions in B2B projects seeking new opportunities as a Frontend/FullStack engineer.

Work experience

Front-end developer Trainee
Koodiviidakko Oy, Oulu
May 2020 - Jul 2020

- UI development using HTML, CSS, React JS
- Creating unit and end-to-end tests using Chai and Mocha for the frontend application, increasing test coverage from 50% to 90%.
- Resolving bugs

Junior Frontend Developer
Epic Invoicing OY, Oulu
Aug 2020 - Sep 2021

- Re-building the nettilasku.fi UI from scratch using React, Material UI, Formik, react-query, and REST API resulting in a more user-friendly interface with fewer customer service issues.
- Creating a private NPM library of reusable components using rollup
- Creating reusable UI components using HTML/CSS and React JS, resulting in time reduction in development for new features.
- Writing documentation for over 10 React components using Storybook, resulting in easier future application maintenance

Frontend Developer
Koodiviidakko Oy, Oulu
Sep 2021 - Present

- Web development using HTML, CSS, React JS
- Using Docker containers for debugging UI issues
- Building a set of bash scripts for setting up the development environment on Linux
- Creating tests for React components using Chai and Mocha library
- Converting legacy code to React functional components
- Quickly identifying and resolving potential issues, preventing them from becoming actual problems.
- Designing and implementing new features which are used by the majority of the product customers
